April 27, 2026

Pursuant to O.S. 27A 2-6-304, the Clinton Public Works Authority is hereby granted this Tier I Permit to construct 775 linear feet of eight (8) inch PVC sanitaryu sewer lines and all appurtenances to serve the Sanitary Sewer System Improvements, Cox St. and Littell Ave., located in NE 1/4, Section 36, T-12-N, R-17-W, Custer County, Oklahoma, in accordance with the plans approved April 27, 2026.

By acceptance of this permit, the permittee agrees to operate and maintain the facilities in accordance with the Oklahoma Administrative Code ("OAC") 252:606 rules and to comply with Title 59, Section 1101-1116 O.S. and the rules and regulations adopted thereunder regarding the requirements for certified operators.

This permit is issued subject to the following provisions and conditions.

1) That the recipient of the permit is responsible for ensuring that the project receives supervision and inspection by competent and qualified personnel.

2) That construction of all phases of the project will be started within one year of the date of approval or the phases not under construction will be resubmitted for approval as a new project.

3) That no significant information necessary for a proper evaluation of the project has been omitted and no invalid information has been presented in applying for the permit.

4) That wherever water and sewer lines are constructed with spacing of 10 feet or less, sanitary protection will be provided in accordance with OAC 252:656-5-4(c)(3).

5) That tests will be conducted as necessary to ensure that the construction of the sewer lines will prevent excessive infiltration and that the leakage will not exceed 10 gallons per inch of pipe diameter per mile per day.

6) That the Oklahoma Department of Environmental Quality ("DEQ") shall be kept informed of occurrences which may affect the eventual performance of the works or that will unduly delay the progress of the project.

7) That the permittee will take steps to assure that the connection of house services to the sewers is done in such a manner that the functioning of the sewers will not be impaired and that earth and ground water will be excluded from the sewers when the connection is completed.

8) That any deviations from approved plans or specifications affecting capacity, flow, or operation of units must be approved by DEQ before any such deviations are made in the construction of this project.

9) That any notations or changes recorded on the official set of plans and specifications in DEQ files shall be part of the plans as approved.

10) That the recipient of the permit is responsible for the continued operation and maintenance of these facilities in accordance with rules and regulations adopted by the Environmental Quality Board, and that DEQ will be notified in writing of any sale or transfer of ownership of these facilities.

11) The issuance of this permit does not relieve the responsible parties of any obligations or liabilities which the permittee may be under pursuant to prior enforcement action taken by DEQ.

12) That the permittee is required to inform the developer/builder that a DEQ Storm Water Construction Permit is required for a construction site that will disturb one (1) acre or more in accordance with OPDES, 27A O.S. 2-6-201 *et. seq.* For information or a copy of the GENERAL PERMIT (OKR10) FOR STORM WATER DISCHARGES FROM CONSTRUCTION ACTIVITIES, Notice of Intent (NOI) form, Notice of Termination (NOT) form, or guidance on preparation of a Pollution Prevention Plan, contact the Storm Water Unit of the Water Quality Division at P.O.
