4C. DISCUSS AND CONSIDER RESOLUTION NO. IA09-02 PROVIDING FOR MEANS TO ATTRACT BUSINESS AND ECONOMIC GROWTH WITHIN THE CLINTON COMMUNITY

Chairman Bryson introduced the resolution and said that the City of Choctaw is the only other city he was aware of that had this type of policy. He said the resolution presented tonight is built off the Choctaw resolution but that some changes had been made to meet the needs of Clinton,.

City Manager Grayson Bottom said that Choctaw had passed the incentive in 2001 and it has been used sporadically and has not been used for a large project. He said that a Policy Statement and Development Policy would also be presented for consideration at the time of each request.

Chairman Bryson said an example of a business that could utilize this program would be T.H. Rogers Lumber Company. He said the key is the Development Agreement.

Trustee Marcy asked about the businesses that could not expand by 25%, what help can they receive.

City Manager Bottom said that in that case the business does not qualify for the incentive.

Trustee Hendrickson said there must be a line drawn.

Chairman Bryson said he is concerned about existing businesses but there has to be a point where a rate of return can be obtained.

Trustee Jordan asked to confirm that the City collects the money and puts it in an escrow account to be help for 90 days before paying it over.

Chairman Bryson said with a Development Agreement, the City can look at attracting regular retailers and support our own retailers. He said the determination can be made if the business is worthy of our support and what affect it would be.

Trustee Hendrickson said he felt comfortable with where the City is going and with the challenge to the existing business to revisit their business plan and he encouraged them to grown and improve.

Chairman Bryson noted changes to the wording of in Section 2 paragraph B including the words “by 60%.”

Trustee Marcy confirmed that the maximum number of years for the program is five.

City Manager Bottom said the definition for the maximum number of years is in the Policy Statement. He said that previously he had not been supportive of incentives but if the playing field is to be leveled for business, this plan would require the business to earn the incentive before they get it.

Clinton Daily News reported Gerald Green asked it different years would apply for different companies.

Chairman Bryson said yes that each company would be reviewed to see what affect the incentive would have on their revenue stream.

Gerald Green asked is the variable years would apply to existing businesses.

Chairman Bryson said that in his opinion current business would deal with a five year program. He said this would give the community the ability to attract business and have good faith when talking with businesses.

Mr. Green asked about the development agreement.

City Manager Bottom said a development agreement is a contract between the firm and the city that lays out the terms, rate and requirements of the agreement.

Trustee Hendrickson said this give the City a tool to go to business to recruit and assist existing businesses.

Motion was made by Trustee Wheeler and seconded by Trustee Marcy to approve Resolution IA09-02 with the discussed changes.

Chairman put the motion to a roll call vote:

Aye: Wheeler, Marcy, Jordan, Hendrickson, Bryson
