RE: Air Diffuser Purchase for WWTP

I am requesting permission to purchase Air Diffusers for the Waste Water Treatment Plant.

On April 03, 2009 DEQ, while doing their annual NPDES (National Pollutant Discharge Elimination System) compliance evaluation, determined that we need to change all of our diffusers in our aeration basins. We have 4 basins with 200 diffusers each. Our plan is to take 200 diffusers (1 basin) out and replace them with new ones, rebuild the 200 diffusers that we remove and replace a 2nd set of diffusers with the rebuilt ones. Next budget year we plan on rebuilding the 3rd and 4th basins. According to DEQ we will be in compliance as long as we have a plan in place and complete it.

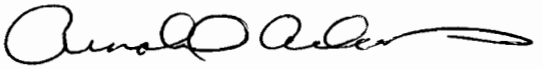

I am aware of our Capital Improvement Fund expenditure freeze and our limiting of operational spending. However, I feel we need to go ahead and complete this project now in order to stay operational and to stay in compliance with DEQ.

After checking with several vendors the following vendor is the only one we could find to fit our application: **(Note: This is not budgeted in our Capital budget, but in our Equipment Maintenance line item.)**

Siemens Water Technologies –

- Diffuser (complete) – 200 x $69.00 = $13,800.00
- Gasket – 400 x $1.00 = $400.00
- Rebuild kits – 200 x $31.00 = $6,200.00
- Freight = $600.00
- **Total = $21,000.00**

Arnold Adams

Facility No. S-10804

Dear Mr. Bryson:

Enclosed is a copy of the report resulting from the NPDES Compliance Sampling Inspection (CSI) conducted at the Clinton Public Works Authority Wastewater Treatment Facility (WWTF) on January 15, 2009, by Department of Environmental Quality (DEQ) personnel. The purpose of the inspection was to evaluate your wastewater facility for compliance with its OPDES permit. The following violations and/or deficiencies were noted during the CSI:

Recordkeeping and Reporting Evaluation

- WWTF personnel have not performed in-stream sampling as required per OAC 252:606-11-3(e).

Operations and Maintenance

- The number one (1) clarifier inner baffle was rusting at the seam and leaking, causing short-circuiting, and diminishing the effectiveness of settling. The clarifier baffle should be repaired so that all flow is evenly distributed under the baffle.
- All three (3) clarifiers had visible excessive foam, scum build-up, and solids flowing over the clarifier weirs.
- Bar screen compactor "cakes" were observed on the ground near the screening removal system. A check-valve was leaking on the 60 horsepower (HP) influent pump at the headworks.
- There were ripped or torn air diffusers in all four (4) aeration basins. The plant operator indicated that maintenance was scheduled to replace or repair the diffusers this summer.
- The number one (1) clarifier scum hopper was plugged and not functioning properly.
- There was floating scum and grease in all four (4) sand filters.
- There was minor floating debris in both chlorine contact basins.
- The north side sludge return screw pump was out of service for painting, and the operator did not know when it was scheduled to be returned to service.
- Operation and maintenance manuals, standard operating procedures, and procedures for emergency operations were available, but in a stage of development and incomplete. This was noted in the last Compliance Evaluation Inspection (CEI) conducted on January 31, 2008.

- Two (2) bypasses from the WWTF and collection system were reported since the last CEI on January 31, 2008. See the attached list.

Flow Measurement

- Plant operators were performing flow calibration checks and keeping a written record, but were not converting the data to a flow rate and calculating the percent error. The purpose of flow checks is to determine if the flow meter is functioning properly. This purpose cannot be accomplished if the percent error is not calculated and shown to be <10%.

Laboratory

- On the September 2008 Discharge Monitoring Report (DMR) and Monthly Operation Report (MOR), total suspended solids (TSS) values were less than the minimum quantifiable concentration of 2.5 mg/l as identified in *Standard Methods for the Examination of Water and Wastewater, 20th Edition,* § 2540 D. 3. b. that states "*Selection of filter and sample sizes:* Choose sample volume to yield between 2.5 and 200 mg dried residue. If volume filtered fails to meet minimum yield, increase sample volume up to 1 L. If complete filtration takes more than 10 min. increase filter diameter or decrease sample volume." Laboratory procedures must be revised to meet the minimum quantifiable concentration of "2.5 mg/l." The minimum quantification concentration of "2.5 mg/l" should be used in computing the "Monthly Average TSS", and "Average TSS Loading" that are reported on the monthly DMRs. The DMR for September 2008 must be revised and resubmitted to the DEQ. The revised DMRs should include a statement indicating the number of samples that resulted in the use of the minimum quantification concentration in the calculations.

- Five-day biochemical oxygen demand (BOD_5) -- Glucose/glutamic acid samples were not being performed at the time of the inspection.
- At the time of the inspection, the label on pH buffer solutions numbers 4, 7, and 10, indicated that the solutions were expired. All expired buffers and reagents should be replaced.
- The laboratory operators were not documenting the pH meter calibration test results.
- Control charts for quality assurance and quality control purposes as described in Section 1020 of Standard Methods for the Examination of Water and Wastewater, 20th Edition, were not complete and in a stage of development.

Sludge Disposal

- The WWTF operators were not maintaining written documentation that demonstrates adequate drying time to meet Class B pathogen reduction requirements. Please see the attached Sludge Inspection Checklist for additional details.

Within thirty (30) days of the date of this letter, the Clinton Public Works Authority needs to take whatever corrective action is necessary to correct the violation(s) cited herein, as well as the deficiencies cited in the enclosed report. A report detailing the corrective actions is needed for documentation purposes by the DEQ. If an item cannot be corrected within thirty (30) days and that item is not already covered under an existing enforcement order, the report must include a schedule for correction of that item.

If you have any questions or need additional information, please contact me at (405) 702-8125 or write me at the letterhead address.

Sincerely,

Mark Velazquez, District Representative

STANDARD TERMS OF SALE

1. Applicable Terms. These terms govern the purchase and sale of the equipment and related services, if any (collectively, "Equipment"), referred to in Seller's purchase order, quotation, proposal or acknowledgment, as the case may be ("Seller's Documentation"). Whether these terms are included in an offer or an acceptance by Seller, such offer or acceptance is conditioned on Buyer's assent to these terms. Seller rejects all additional or different terms in any of Buyer's forms or documents.
2. Payment. Buyer shall pay Seller the full purchase price as set forth in Seller's Documentation. Unless Seller's Documentation provides otherwise, freight, storage, insurance and all taxes, duties or other governmental charges relating to the Equipment shall be paid by Buyer. If Seller is required to pay any such charges, Buyer shall immediately reimburse Seller. All payments are due within 30 days after receipt of invoice. Buyer shall be charged the lower of 1 ½% interest per month or the maximum legal rate on all amounts not received by the due date and shall pay all of Seller's reasonable costs (including attorneys' fees) of collecting amounts due but unpaid. All orders are subject to credit approval. These terms are completely independent from, and in no way contingent upon, when you receive payment, from the Owner and/or prime contractor.
3. Delivery. Delivery of the Equipment shall be in material compliance with the schedule in Seller's Documentation. Unless Seller's Documentation provides otherwise, Delivery terms are F.O.B. Seller's facility.
4. Ownership of Materials. All devices, designs (including drawings, plans and specifications), estimates, prices, notes, electronic data and other documents or information prepared or disclosed by Seller, and all related intellectual property rights, shall remain Seller's property. Seller grants Buyer a non-exclusive, non-transferable license to use any such material solely for Buyer's use of the Equipment. Buyer shall not disclose any such material to third parties without Seller's prior written consent.
5. Changes. Seller shall not implement any changes in the scope of work described in Seller's Documentation unless Buyer and Seller agree in writing to the details of the change and any resulting price, schedule or other contractual modifications. This includes any changes necessitated by a change in applicable law occurring after the effective date of any contract including these terms.
6. Warranty. Subject to the following sentence, Seller warrants to Buyer that the Equipment shall materially conform to the description in Seller's Documentation and shall be free from defects in material and workmanship. The foregoing warranty shall not apply to any Equipment that is specified or otherwise demanded by Buyer and is not manufactured or selected by Seller, as to which (i) Seller hereby assigns to Buyer, to the extent assignable, any warranties made to Seller and (ii) Seller shall have no other liability to Buyer under warranty, tort or any other legal theory. If Buyer gives Seller prompt written notice of breach of this warranty within 12 months from shipment (the "Warranty Period"), Seller shall, at its sole option and as Buyer's sole remedy, repair or replace the subject parts or refund the purchase price therefore. If Seller determines that any claimed breach is not, in fact, covered by this warranty, Buyer shall pay Seller its then customary charges for any repair or replacement made by Seller. Seller's warranty is conditioned on Buyer's (a) operating and maintaining the Equipment in accordance with Seller's instructions, (b) not making any unauthorized repairs or alterations, and (c) not being in default of any payment obligation to Seller. Seller's warranty does not cover damage caused by chemical action or abrasive material, misuse or improper installation (unless installed by Seller). THE WARRANTIES SET FORTH IN THIS SECTION ARE SELLER'S SOLE AND EXCLUSIVE WARRANTIES AND ARE SUBJECT TO SECTION 10 BELOW. SELLER MAKES NO OTHER WARRANTIES OF ANY KIND, EXPRESS OR IMPLIED, INCLUDING WITHOUT LIMITATION, ANY WARRANTY OF MERCHANTABILITY OR FITNESS FOR PURPOSE.
7. Indemnity. Seller shall indemnify, defend and hold Buyer harmless from any claim, cause of action or liability incurred by Buyer as a result of third party claims for personal injury, death or damage to tangible property, to the extent caused by Seller's negligence. Seller shall have the sole authority to direct the defense of and settle any indemnified claim. Seller's indemnification is conditioned on Buyer (a) promptly, within the Warranty Period, notifying Seller of any claim, and (b) providing reasonable cooperation in the defense of any claim.
8. Force Majeure. Neither Seller nor Buyer shall have any liability for any breach (except for breach of payment obligations) caused by extreme weather or other act of God, strike or other labor shortage or disturbance, fire, accident, war or civil disturbance, delay of carriers, failure of normal sources of supply, act of government or any other cause beyond such party's reasonable control.
9. Cancellation. If Buyer cancels or suspends its order for any reason other than Seller's breach, Buyer shall promptly pay Seller for work performed prior to cancellation or suspension and any other direct costs incurred by Seller as a result of such cancellation or suspension.

   In the event buyer wishes to return material for credit - A return material authorization (R.M.A.)
   must be issued from the seller before any return.
   Equipment to be returned must be in new condition, suitable for restocking and resale.
   Non stock items are not returnable.
   Items invoiced over 12 months prior are not returnable.
   Restock fee of 25% of item value applies.
   Return freight and associated costs are for the account of the buyer.
10. LIMITATION OF LIABILITY. NOTWITHSTANDING ANYTHING ELSE TO THE CONTRARY, SELLER SHALL NOT BE LIABLE FOR ANY CONSEQUENTIAL, INCIDENTAL, SPECIAL, PUNITIVE OR OTHER INDIRECT DAMAGES, AND SELLER'S TOTAL LIABILITY ARISING AT ANY TIME FROM THE SALE OR USE OF THE EQUIPMENT SHALL NOT EXCEED THE PURCHASE PRICE PAID FOR THE EQUIPMENT. THESE LIMITATIONS APPLY WHETHER THE LIABILITY IS BASED ON CONTRACT, TORT, STRICT LIABILITY OR ANY OTHER THEORY.

11. Miscellaneous. If these terms are issued in connection with a government contract, they shall be deemed to include those federal acquisition regulations that are required by law to be included. These terms, together with any quotation, purchase order or acknowledgement issued or signed by the Seller, comprise the complete and exclusive statement of the agreement between the parties (the "Agreement") and supersede any terms contained in Buyer's documents, unless separately signed by Seller. No part of the Agreement may be changed or cancelled except by a written document signed by Seller and Buyer. No course of dealing or performance, usage of trade or failure to enforce any term shall be used to modify the Agreement. If any of these terms is unenforceable, such term shall be limited only to the extent necessary to make it enforceable, and all other terms shall remain in full force and effect. Buyer may not assign or permit any other transfer of the Agreement without Seller's prior written consent. The Agreement shall be governed by the laws of the State of Pennsylvania without regard to its conflict of laws provisions.
12. RESERVATION CLAUSE (International - including Canada and Mexico). 4A. CONSIDER SUPPLEMENTAL BUDGET AMENDMENT TO 2009-2010 BUDGET

City Manager Grayson Bottom explained that during the budget preparation there were comments regarding the maintenance of the city's parks. He said during a tour of the city's seventeen parks, it was determined that a high priority was established for the parks to look nice. He said the amendment presented is to deal with the cost of the maintenance of the parks. He said a majority of the amendment is for salary and wages for the swimming pool, Parks Maintenance, Golf Course and Acme Brick Park. He said the supplemental budget amendment of $200,000 is from the General Fund to the Recreational Authority and this is to last through the balance of the fiscal year.

Trustee Marcy asked if there are still plans for Acme Brick Park in the Capital Plan.

City Manager Grayson Bottom said there are long term Capital Improvement Plans for a sidewalk at the soccer complex. He said blocks for the construction of the concession stand at the soccer complex are ordered and will be built soon.

Trustee Wheeler asked about the golf course maintenance.

City Manager Grayson Bottom said with the change in operation requirements for the golf course, additional full-time employees have been hired and part-time employees have been eliminated.

Mr. Bottom,

Thank you for taking the time to speak with me today.

As I told you this morning, shortly after we purchased the land from the City of Clinton, we lost our store manager, and thus had no one to oversee our building project. Also, as you are aware, the economy has slowed significantly since we purchased the land. Because of these two issues, there was a delay in the start of our store construction in Clinton.

However, because of the excellent group of employees that we have working at our store in Clinton, and because we feel that we have the ability to grow our business in Clinton, we are planning to begin construction of our new store within the next 30 days.

Should you need any further information from me, please contact me at (405)330-2181 or (405)820-2355. Your help in this matter is greatly appreciated.

Thank you,

Jonathan Kennedy

AGENDA ITEM NO. 4 ACTION ITEMS

4A. CONSIDER OKLAHOMA MUNICIPAL ASSURANCE GROUP WORKER'S COMPENSATION PLAN REFUND VOUCHER AGREEMENT

City Manager Grayson Bottom explained that unearned premiums from the 2006-2007 year have accumulated with the Oklahoma Municipal Assurance Group for the City's worker's compensation plan. He requested that the refund be applied to the current workers compensation insurance premiums. He said the premium for a year is approximately $155,000 and the $62,000 refund would be applied to the premium.

City Manager Grayson Bottom said the refund is due to the City having an active safety committee that encourages continuous safety training for employees and employees who do their job in a safe manner.

Motion was made by Councilman Jordan and seconded by Councilman Marcy to approve the Oklahoma Municipal Assurance Group Worker's Compensation Plan Refund Voucher Agreement to apply the refund of $62,102.01 to the 2009-2010 insurance premiums.

Mayor put the motion to a roll call vote:

Aye: Jordan, Marcy, Hendrickson, Wheeler, Bryson
Nay: None

Mayor declared the motion carried.

4B. CONSIDER REQUEST OF BRAD ANESHANSLEY FOR LUMP SUM PAYMENT FOR RETIREMENT BENEFITS FROM OKLAHOMA MUNICIPAL RETIREMENT FUND

Motion was made by Councilman Hendrickson and seconded by Councilman Wheeler to approve the request of Brad Aneshansley for lump sum payment for retirement benefits from the Oklahoma Municipal Retirement Fund.

Mayor put the motion to a roll call vote:

Aye: Hendrickson, Wheeler, Marcy, Jordan, Bryson

Mayor declared the motion carried.

4C. CONSIDER ORDINANCE NO. 919 REGARDING THE REQUIREMENTS FOR A CONTRACTOR'S CERTIFICATE FOR ANY PERSON ENGAGING IN THE ERECTION, REPAIR, OR CONSTRUCTION OF ANY BUILDING; PROVIDING FOR METHOD OF APPLICATION FOR SUCH CONTRACTOR'S CERTIFICATE; PROVIDING FOR GENERAL LIABILITY AND WORKER'S COMPENSATION INSURANCE REQUIREMENTS; PROVIDING FOR FEES AND RENEWAL CERTIFICATES; PROVIDING FOR PENALTIES FOR VIOLATION, AND DECLARING AN EMERGENCY.

City Manager Grayson Bottom said during last years legislative session, a stand alone commission known as the Oklahoma Uniform Building Codes Commission was created. The purpose is to establish Oklahoma Building Codes. He said currently the City enforces the International Building Codes. He said the City was notified on September 24, 2009 that Senate Bill 1182 and Senate Bill 306 passed and is to go into effect November 1, 2009. He said the City of Yukon's ordinance was used as an example for the ordinance that has been prepared for the City of Clinton by Assistant City Attorney Ryan Meacham.

City Manager Grayson Bottom said currently the City issues licenses to plumbers, electricians, mechanical licenses after a state license has been obtained. He said general contractors have not been required to have state or local licenses and the purpose of this legislation is to change this. He said effective November 1, 2009 the state is requiring the City to collect $5.00 for each building permit that is issued on residential and commercial structures. This fee is to be submitted by the City to the state on a monthly basis.

Building Inspector Charles Fry estimated that fifty permits are issued by the City per month.

City Manager Grayson Bottom said the City needs to be in compliance with state law but it is unclear as to the definition of a General Contractor.

Assistant City Attorney Ryan Meacham said he had searched state statutes and only found a general definition for general contractor. He said the City is required to collect the state fee under the terms of the ordinance. He said the Board will determine who needs to supply verification of insurance.

Councilman Hendrickson asked why the ordinance can't reflect the exclusions.

Meacham said the language in the ordinance is reflected from the building permit section. He said that the ordinance could be reviewed to look at the section regarding resident owners. He said with the removal of "resident" that would allow owners to work on their business property as well.

City Manager Grayson Bottom said the City is at risk in the collection and submittal section requirements. He suggested passing the ordinance and striking "resident" and then the Mayor/Council issue a moratorium until the state gives guidance.

Meacham said the requirements are effective November 1, 2009.

City Manager Bottom asked if it were possible for the Council to approve the ordinance with 'resident" omitted and then on a later agenda consider a moratorium on the General Contractor certificate until further guidance is provided by the state.

Meacham said then the emergency clause should be eliminated from the ordinance.

Randy Jones said currently a building permit is requirement for any project costing $500.00 or more. He said there is rarely a project that does not meet that dollar limit. He suggested raising the limit on project costs that require a building permit.

City Manager Bottom agreed that the limit was set many years ago and that it should be considered.

Mayor Bryson instructed the City Manger to bring the Council more information on the building permit requirements and he suggested approving the ordinance with "resident" struck from Section a-3 and calling a special meeting on October 29, 2009 at noon to discuss a moratorium on the ordinance.

Motion was made by Councilman Jordan and seconded by Councilman Marcy to approve Ordinance 919 with Section A-3 amendment to strike "resident" and to call a special meeting on October 29, 2009 at noon to discuss a moratorium on the ordinance.

Mayor put the motion to a roll call vote:

Aye: Jordan, Marcy, Hendrickson, Wheeler, Bryson
Nay: None

Mayor declared the motion carried.

Motion was made by Councilman Jordan and seconded by Councilman Marcy to approve the emergency clause to Ordinance 919.

Mayor put the motion to a roll call vote:

Aye: Jordan, Marcy, Wheeler, Hendrickson, Bryson
Nay: None

Mayor declared the motion carried.

4D. MAYOR'S STATE OF CITY PRESENTATION

Mayor Bryson presented an overview of the projects that have been undertaken by the City and the status of future projects.

5. CITY MANAGER'S REPORT

City Manager Grayson Bottom reported that the City has received a grant for the Police Department. The grant provides a new CMI Intoxilyzer 8000 that is to be installed in January 2010.

City Manager Grayson Bottom reported there have been developments on the Roush Army Reserve Building. He will be attending a meeting regarding the facility in November.

City Manager Grayson Bottom explained an operational change to the City of Clinton was implemented October 13, 2009. A hiring freeze, Capital Improvement Fund expenditure freeze and the limiting of operational spending was put into place. He explained that the exception to the Capital Improvement Fund expenditure freeze is the Northeast Quadrant Water Line Replacement Project.

AGENDA ITEM NO. 7: ADJOURNMENT

Moved by Councilman Wheeler and seconded Councilman Hendrickson to adjourn the meeting.

Mayor put the motion to a roll call vote:

General provisions.

(a) Certificate required.

(1) It shall be unlawful for any person to erect, install, improve, enlarge, repair, move, demolish, or alter any premises, building or other structure within the city limits of Clinton without first obtaining a contractor's certificate from the city. Prior to issuance of any building permits, pursuant to 11-2-1 of this code, the applicant for the permit shall have a valid contractor's certificate.

(2) A contractor's certificate is not required of persons who have a valid certificate for other specialized trades required by this code and provided the work performed is within the authority granted therein.

(3) Owners of the property are not required to obtain a contractor certificate when performing work on their own property provided work is performed by the owner; nothing herein shall relieve any person from obtaining other licenses, permits or certificates required by this code.

(b) Method of application.

(1) Any person who is required by this article to possess a contractor's certificate shall make an application to the city on application forms provided for that purpose by the city.

(2) The lending of any contractor's certificate and/or the person to whom the certificate is issued obtaining other permits thereunder for any other person shall be deemed cause for revocation. A contractor's certificate issued by the city is not transferable, and violation of this provision is cause for revocation in addition to other penalties in this code.

(3) The City Council may revoke the contractor's certificate for just cause. The City Manager may suspend such certificate if, in his opinion, the certificate holder violates any provision of the code. In such case, the City Manager shall give notice of the suspension to the contractor. The contractor whose certificate has been suspended shall have the right to appear before the council and be heard before the certificate is permanently revoked and shall be given adequate notice of the time and place of such hearing and of the charges against the certificate holder. Such cause must be disposed of by the City Council within thirty (30) days of the time of the suspension.

(c) Certification fee, annual renewal fee.

(1) Before such certificate is issued a fee of $100.00 for the first year and $50.00 per year thereafter shall be paid to the City Clerk for contractor's registration certificate.

(2) Each certificate issued shall expire on June 30th of each year.

(3) The annual renewal application, appropriate documentation and fees must be received by the city on or before July 1st and shall be considered surrendered if the certificate is not renewed within fifteen (15) days. (d) Workers Compensation Insurance Requirements.

(1) Each building contractor who is defined in the Workers' Compensation Act, Title 85, Oklahoma Statutes, Section 1 et seq. (the "Act") as an employer of employees as defined in the Act and not exempt, which contractor is registered under this article shall be required to document to the City of Clinton and to keep in force during the life of its registration, a workers' compensation insurance policy to protect the contractor's employees against occupational hazards and diseases as regulated and defined in the Act.

(2) A Certificate of Insurance for workers' compensation with the city named as a certificate holder from an insurance company duly licensed to do business in the State of Oklahoma or proof of exemption or own risk status shall be submitted with the application for registration to the city. (3) The contractor shall be required to notify the city within ten (10) working days upon termination of an insurance policy. This will cause the city to invalidate the certificate.

A Certificate of Insurance shall be provided at the time application is made for a contractor's certificate. Contractor shall notify the city within ten (10) days of termination of the policy. City shall be named a certificate holder. Failure to maintain general liability insurance in the specified limits shall cause the contractor's certificate to be deemed revoked.

2. CONSIDER MORATORIUM ON ORDINANCE NO. 919 REGARDING SECTION 1 PART A-`, SECTION 1 PART B-1, B-2, B-3, PART C-1, C-2, C-3, D-1 THROUGH D-3, PART E AND PART F

Mayor Bryson explained that at the previous City Council meeting Ordinance No. 919 had been discuss and approved. It was recommended that a special meeting be held to discuss placing a moratorium on sections of the ordinance. Mayor Bryson said the moratorium would cover all but the section regarding the collection of $5.00 to be submitted to the state.

City Manager Grayson Bottom said $5.00 is not specified in the ordinance in the event the amount should change it would not affect the ordinance.

Councilman Marcy asked how long the moratorium would last.

City Manager Grayson Bottom said it would not be removed until the State of Oklahoma provides more specific information and definitions regarding general contractors.

Bottom said the second step to this process will be reviewing the $500.00 level for requiring a building permit. He said inflation has affected that number and should be considered. He said the level for requiring a building permit should be changed to an appropriate level.

Motion was made by Councilman Jordan and seconded by Councilman Marcy to place a moratorium on Ordinance No. 919 regarding Section 1 part A-1, Section 1 Part B-1, B-2, B-3, Part C-1, C-2, C-3, D-1 through D-3, Part E and Part F.
